% Objective

Results-driven Mobile Developer specializing in cross-platform app development using Angular, Ionic, and Capacitor, with strong skills in feature integration, performance optimization, and app publishing.

% Experience

- **Lettra Press LLC** March 2021 - March 2023
WordPress Developer / Video Editor
Developed and maintained WordPress websites for authors using Elementor and third party plugins.

Crafted video templates for bookfairs using Adobe Premiere Pro and Adobe After Effects.
- **TvStartup Inc.** Nov 2 2023 - January 2 2024
WordPress Developer
Developed and maintained template based websites
- **TvStartup Inc.** January 2 2024 - Present
Mobile Application Developer
 - Developed and maintained cross-platform mobile applications using Angular, Ionic, and Capacitor.
 - Implemented key features such as deeplinking, IMA SDK integration, AdMob ads, and backend API connections.
 - Refactored and upgraded the codebase from Angular v14 to Angular 20+, ensuring scalability and best practices.
 - Built custom UIs based on client requests while optimizing for performance and responsiveness.
 - Monitored network logs, fixed bugs, and resolved memory leaks to improve app stability.
 - Integrated third-party plugins to deliver innovative solutions and extend app functionality.
 - Managed end-to-end app lifecycle: building, testing, publishing on Google Play Store and Apple App Store, and resolving compliance/policy issues.
